## DETERMINING SPACE AVAILABILITY ON FAMILY LOTS

### Standard Grave Space

1. A space on a family lot has the following dimensions:

Within a single grave space there are the four following burial options:

One casketed burial (diagram A below)

One casketed burial and one cremated remains (diagram B below)

Two cremated remains (diagram C below)

One cremation (diagram D below)

### Non-Standard Grave Space

2. Estate lots (those sold by square footage) can be engineered to contain a mixture of fullbody and individual cremation spaces. A single cremation may be placed in an area not less than one half of a standard grave space (40" x 4 ½').

### Markers

3. Use of any space (1&2 above) assumes that the marker will be placed (positioned) consistently with others on the lot.

---

### Customer Interests:

Are casketed spaces desired? Yes \_\_\_\_\_ No \_\_\_\_\_

Is cremation an option? Yes \_\_\_\_\_ No \_\_\_\_\_

Are there any specific location preferences; if so, what?

---
